

Copahu essential oil birectified

Copahu, a treasure of the Amazonian forest, has long been used by the Indians of Amazonia for its antiseptic virtues. The red wood of this tree is also widely used for construction.

Our commitments

This essential oil is made from copahu balm also known as copaiba. We produce this raw material at our extraction facilities.

Formulation

The balm used to extract the essential oil comes from a large Amazonian tree. The balsamic and woody scent of this essential oil is very sought after in fine perfumery. A double distillation gives this extract more solubility, making it easier to use.
