

Organic geranium hydrosol

Originally from South Africa, Geranium has acclimatized in many geographical areas: Réunion Island, Egypt, China, France. Of the 600 existing species, only three have made the plant famous: Asperum, Rosat and Graveolens. We cultivate the Graveolens species.

Our commitments

Geranium is grown in Dauphiné-Provence by our partner farmers under fair trade and organic methods.

OLFACTIVE NOTES : Floral, geranium, floral rosy

Main features
