

Neroli essential oil

Originally from China, the bitter orange tree has been quickly spread to the Mediterranean basin. Extracted from its flowers, neroli essential oil has been used since the 16th century for its soothing and anti-infectious properties. Its name comes from the Italian princess Anna Maria de Nerola. She used neroli oil to perfume her baths and made it world-famous.

OLFACTIVE NOTES : Floral, sweet, suave

TASTING NOTES : Floral, fruity

Caractéristiques

USE

Food, Aromatherapy, Cosmetic, Perfumery

BOTANICAL NAME

Citrus aurantium l. ssp. amara

BOTANICAL FAMILY

Rutaceae

INCI NAME

Citrus aurantium amara flower oil

CAS NUMBER

8016-38-4

FEMA NUMBER

2771

COUNTRY OF ORIGIN

Egypt, Tunisia

PLANT PART USED

Flowers

HARVEST

From march to april

PROCESSING METHOD

Steam distillation

CERTIFICATIONS/LABELS

Conventional

CONSTITUTION

100% pure and natural

DONNÉES DE SÉCURITÉ

www.quickfds.com

Formulation

Bewitching and subtle essence as a heart note in fragrance compounds. In cosmetics, it will be appreciated by sensitive or problematic skins for its regenerating properties.

COS'ING

Perfuming

COSMETIC FUNCTION

Regenerating

COSMETIC PROPERTIES

Soothing, balancing, emollient
